Bipolar electrochemistry-General introduction and applications

Instructor's name and contact details: Dr. Bhavana Gupta

Nanoelectrochemistry Lab

Phone-573927339

Email-bgupta@ichf.edu.pl

1. General introduction of Bipolar electrochemistry-

8 Nov 2023

- 2. Bipolar electrochemistry to create motion
- 3. Experimental demonstration of motion through bipolar electrochemistry
 - a. Materials preparation
 - b. Motion in the material
- 4. Bipolar electrochemistry for sensing
- 5. Experimental demonstration of sensing through bipolar electrochemistry
- 6. Bipolar electrochemistry for materials modification to achieve advanced functionality
- 7. Bipolar electrochemistry for other applications.

Please register by sending a message to <u>bgupta@ichf.edu.pl</u> if you want to attend. Registration deadline: November 5.
