

Dr. Janez Cerar

will deliver a series of lectures on

Electrolyte and polyelectrolyte solutions

between Oct. 3 and Oct. 11. 2023:

- Electrostatics in electrolyte solutions – case of Debye-Hückel theory (1h)
- Thermodynamics of polyelectrolyte solutions (1h)
- Specific ion effects in polyelectrolyte solutions (1h)
- Fullerene-based electrolytes and their properties (1h)
- Preparation and physico-chemical properties of NATural Deep Eutectic Solvents (NADES) (2h)

Please register by sending an e-mail to Prof. Alina Ciach (aciach@ichf.edu.pl) if you want to attend.

Registration deadline: September 29, 2023.
