ALGHOZ KATIA	pozytywna / positive	The Evaluating Committee has given a positive assessment of Ms. Katia ALGhoz based on the documents provided and the presentation and discussion with the Doctoral Student. The presentation was smooth and detailed the project and its results effectively. Ms. ALGhoz demonstrated a good understanding of her research topic and the methods she uses. The ambitious project addresses a timely topic and provides opportunities for good publications. The student expanded her original research with an investigation related to TRIM32 E3 ligase, which could provide new mechanistic insights into adipocyte metabolism regulation. The committee recommends updating the Individual Research Plan accordingly. The PhD candidate efficiently followed the education program, exceeding the required number of ECTS points. To further develop scientific presentation and discussion skills, the committee encourages the student to participate in international conferences.
