THAKKUR KRUTIKA	<b>pozytywna / positive</b>	<p>Krutika Thakkur gave us interesting presentation summarizing her scientific achievements obtained within 24 months of her studies at the Nencki Institute doctoral school. Although vast majority of tasks expected to be undertaken according to the preliminary research plan were completed (particularly those planned to be finished in the first year of work), some of them needed further work. Therefore the Committee decided to give 3 points. Moreover, the Committee stressed that any changes introduced to the previously accepted plan should have been declared in an official form before the mid-term evaluation. Scientific activity of the candidate was fully satisfying (24 month work seems to be too short period of time to expect a research article to be published).</p> <p>To conclude, the Committee highly rated the report given by Krutika Thakkur indicating her scientific knowledge and very good understanding of the main threads of her research.</p>
